

## Elroy-Sparta State Trail Construction & Closures

A large infrastructure project kicked off construction last week on the Elroy-Sparta State Trail. This project involves the repair or replacement of 10 bridge or culvert structures on the Elroy-Sparta State Trail.

The project begins with work on five structures between John Street in Sparta and the southeast-most crossing of Javelin Road in the Town of Wells. Work on this section is expected to continue at least through the first week of May 2026. The project will then shift to the other structures located near Norwalk and Wilton this fall.

To facilitate this work, the trail will need to be closed to public use around the construction. Currently, the trail is only closed between the two Javelin Road crossings in the Town of Wells.
